SUMMARY

MERN Full Stack Developer with hands-on experience building production-ready web applications from scratch. Skilled in React.js, Node.js, Express.js, MongoDB, REST APIs, JWT authentication, Socket.io, and Tailwind CSS. Delivered complex projects featuring real-time messaging, hotel booking systems, Stripe payment integration, and AI-powered assistants. Brings a security-first mindset from a year-long cybersecurity internship — writing code that is not just functional but resilient.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), React.js, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3, Context API
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.io
Database: MongoDB (NoSQL), Mongoose, PostgreSQL (SQL) — Foundational.
Cloud & Deployment: AWS EC2, AWS S3, CI/CD (GitHub Actions), Docker , Vercel, Render, Cloudinary
Tools & Dev Ops: Git, GitHub, Postman, Stripe
Familiar With: Python

PERSONAL PROJECTS

Scenic Wonders — Travel Community & Booking Platform | 2025 - Present

- Architected a scalable travel social platform using the MERN stack and MVC pattern, prioritizing modular backend services to facilitate rapid feature iteration and system maintainability.
- Engineered real-time messaging with Socket.io, enabling instant user communication, unread message tracking, and synchronized chat updates across active sessions.
- Developed a high-concurrency hotel booking system featuring complex date-based availability logic, advanced filtering, and secure Stripe payment orchestration.
- Implemented a secure, role-based access control (RBAC) system utilizing JWT and protected routes, ensuring persistent user sessions and high-level data security.
- Integrated an AI-powered travel assistant using Groq/LLaMA to deliver context-aware support and personalized destination recommendations, enhancing user engagement.
- Optimized global state management with React Context API to ensure seamless, synchronized updates across critical modules, significantly improving UI consistency.
- Built a comprehensive, data-driven Admin Dashboard enabling full CRUD operations for inventory, user, and revenue management, utilizing efficient database aggregation for real-time reporting.

Textures — E-Commerce App | 2025

- Developed a full stack e-commerce application for men, women, and kids clothing collections.
- Implemented authentication, cart management, and order workflow features.
- Built product filtering and sorting by category, gender, and pricing.
- Integrated Stripe, Razorpay, and Cash on Delivery payment systems.
- Created admin dashboard for managing products, inventory, and order status updates.
- Designed RESTful APIs and MongoDB schemas for scalable backend operations.

EXPERIENCE

Cybersecurity Intern | Technovalley Software India Pvt. Ltd. | jul 2022 – jul 2023

- Monitored and analyzed security threats across systems and networks.
- Conducted vulnerability assessments and assisted in system hardening.
- Gained hands-on exposure to SOC operations and incident response.

EDUCATION

Advanced Diploma in Pentesting & SOC (ADPS) — Technovalley Software India Pvt. Ltd. | Jul 2022 - Feb 2024

CERTIFICATIONS:

- EC-Council SOC Analyst (CSA) — EC-Council | 2024
- SQL Injection Attack — EC-Council | 2024

Bachelor of Commerce (Computer Application) | 2019 - 2022
University of Calicut
VV College of Science and technology , Palakkad,Kerala
