

ANOOP.S

FULL STACK DEVELOPER

(+91)9072272776 | anoops0666@gmail.com | [Portfolio](#) | [Linkedin](#) | [Github](#) | 📍 Kerala,India

SUMMARY

Full Stack Developer with hands-on experience building web applications using the MERN stack. Developed real-world projects including Scenic Wonders, a travel and hotel booking platform with social and AI-assisted features, and Textures, a full-stack e-commerce platform. Skilled in React, Node.js, Express, MongoDB, REST APIs, authentication, and responsive UI development with Tailwind CSS. Strong interest in building scalable products, learning new technologies, and solving real-world problems through software development.

TECHNICAL SKILLS

Frontend: HTML5 | CSS3 | Tailwind CSS | JavaScript (ES6+) | React.js | Responsive Design

Backend: Node.js | Express.js | JWT Authentication | RESTful API Design | Socket.io

Database: MongoDB | Mongoose

Tools & Dev Ops: Git | GitHub | Postman | Vercel | Render | Stripe | Cloudinary

Familiar With: Next.js | TypeScript | Python |

PROJECTS & EXPERIENCE

Scenic Wonders | Full Stack Engineer | 2025 – Present

- Architected a full-stack travel social platform using the MERN stack and MVC architecture, supporting scalable backend services and modular application development.
- Engineered real-time messaging with Socket.io, enabling instant user communication, unread message tracking, and synchronized chat updates.
- Developed a hotel booking system featuring date-based availability checks, advanced search filtering, booking management, and secure Stripe payment integration.
- Implemented JWT-based authentication and authorization with protected routes, role-based access control, and persistent user sessions.
- Integrated an AI-powered travel assistant using Groq/LLaMA to provide context-aware support and destination recommendations.
- Managed complex frontend state using Context API to synchronize dynamic updates across booking, messaging, authentication, and social feed modules.
- Built a comprehensive admin dashboard to monitor users, bookings, hotels, and revenue, with full CRUD operations and inventory management capabilities.

Textures | Full Stack Engineer | 2025

- Developed a full stack e-commerce application for men, women, and kids clothing collections.
- Implemented authentication, cart management, and order workflow features.
- Built product filtering and sorting by category, gender, and pricing.
- Integrated Stripe, Razorpay, and Cash on Delivery payment systems.
- Created admin dashboard for managing products, inventory, and order status updates.
- Designed RESTful APIs and MongoDB schemas for scalable backend operations.

EDUCATION

Advanced Diploma in Pentesting and SOC (ADPS)

2023 - 2024

Technovalley Software India Pvt. Ltd.

Integrated Internship:

- Completed a year-long cybersecurity internship focusing on threat monitoring, system security, and vulnerability assessment.

Bachelor of Commerce (Computer Application)

2019 - 2022

University of Calicut

VV College of Science and technology , Palakkad,Kerala
